AWARENESS TO THE STUDENTS

New Drugs in Schools

Teachers/Parents should know about this drug

This is a new drug known as “**STRAWBERRY QUICK**”. It is imperative that we are cognizant of the threat that lies here,

There is a type of crystal meth going around that looks like **STRAWBERRY POP ROCKS** (The candy that sizzles and pops in your mouth). It smells like strawberry and its being handed out to kids in schoolyards. They are calling it “**STRAWBERRY METH** or **STRAWBERRY QUICK**”

Kids are ingesting this thinking that it is a candy and being rushed off to the hospitals in dire conditions. It also comes in chocolate, peanut butter, cola, cherry, grape and orange.

PLEASE INSTRUCT your children not to accept candy from strangers and even not to accept a candy that looks like this from a friend.
